Clean ahead

Scrubmaster B30

**Area coverage
up to 1,900 m² cleaned/hour**

The Scrubmaster B30 scrubber-drier is ideally equipped for the fast, thorough cleaning of small and medium-sized areas. Manoeuvrable and compact, they provide an excellent view of the area to be cleaned. Two models are available for selection: either with PowerFlow (B30, the brush supports the forward drive) or for convenience with a continuously variable drive (B30 CL, forwards/reverse). A maintenance-free battery packet guarantees long operating times of up to 110 minutes and the series production on-board charger enables the battery to be charged at any standard power socket.

Technical Data Scrubmaster		B30	B30 CL
Working width	cm	43	43
Squeegee width	cm	76	76
Theoretical area coverage	m ² /h	1,700	1,900
Nominal voltage	V	24	24
No. of brushes		1	1
Working speed	km/h	4.0	4.5
Solution tank	l	30	30
Recovery tank	l	30	30
Width, without/with squeegee	cm	50/76	50/76
Weight without battery	kg	85	96
Weight, wet with battery	kg	179	190
Total output	kW	1.13	1.31

1. Ideal ergonomics, fatigue-free working thanks to the optimum handle position and excellent view as well as intuitive operation meaning short training
2. Colour-coded service points and direct, tool-free access for daily inspection and easy to service construction reduce servicing time and costs
