

Scrubmaster B45

Scrubmaster B45

**Area coverage
up to 2,900 m² cleaned/hour**

Scrubmaster B45 CL TB 65

Scrubmaster B45 CL WB

The Scrubmaster B45 scrubber-driers are highly convincing developments for basic and routine cleaning of all non-textile floors. Whether equipped with economic PowerFlow (the brush supports the forward drive) or convenient, continuously variable drive (forward/reverse): The models in the Scrubmaster B45 series are provided with tailor-made solutions, quickly and economically, according to the customers' demands. Depending on your individual needs, you can select from a circular brush unit with working widths of 43, 51 and 65 cm or a cylindrical brush unit with a working width of 50 cm and dirt collection.

Technical Data Scrubmaster		B45	B45 CL TB	B45 CL WB
